

CERTIFICATE OF COURSE COMPLETION

This is to proudly certify that

Sara Ahmed Albukhaytan

has successfully completed the Professional Data Engineering Bootcamp, an intensive program exceeding 60 hours of hands-on training designed to equip learners with the technical and practical skills required to excel in today's local and global data-driven markets. Throughout the program, the participant mastered the end-to-end process of building modern data systems using industry-leading tools and technologies, including Python, SQL, NoSQL (MongoDB & Redis), Linux, Git, Airflow, Kafka, Hadoop, Spark, Microsoft Fabric, Azure, and Power BI. They completed multiple real-world projects covering Web Scraping, Lakehouse architecture, Medallion architecture, data warehousing, data pipeline orchestration, and real-time data processing.
